Sir,

Sub : Touch Screen Kiosk and development of software – Reg.
Ref : Your office letter No. A29/SSP(L&O)-RD/2018-20, dated 26-01-2018

This refers to the communication received from DIG (L&O), Puducherry regarding the installation of 'Touch Screen Kiosk' and content updation for the general public/tourists to know the heritages and tourist destinations in Puducherry.

2) In this regard, we also had a brief discussion with the CRB official. It is advised that police website may be made accessible through internet connection over Touch Screen. As your good office may be aware that police website is maintained in-house by Police Department and the same official could be engaged for content updation and kiosk operation. It may kindly be noted that NIC does not deal with content updation and third party hardware due to IPR and other technical issues. However, if there is any technical advise needed, we would be happy to extend the support.
